- pointer
 - indicator
 - event
 - interrupt
25. When the CPU translates the instruction into something that it can understand, it is in the _____ stage of the Machine Cycle.
- fetch
 - decode
 - execute
 - store
26. A CPU's processing power can be determined by the _____.
- number of cores it has
 - type of monitor the computer uses
 - heat a chip generates
 - sound of the hard disk spinning
27. Which of the following is **TRUE** about Solid-State Drives (SSD)?
- Price is cheaper compared to other drives.
 - Faster processing compared to hard drives.
 - It consumes a lot of power.
 - Very bulky and heavy compared to hard drives.
28. Which of the following is the slowest memory in a computer?
- Thunderbolt
 - Cache
 - RAM
 - Hard disk

Continued...

29. The time taken for a drive to find the data and make it available for processing is referred to as _____.
a. seek time
b. bandwidth
c. access time
d. process time
30. The most important thing to do before donating your computer is to _____.
a. clean the keyboard
b. remove all data from the hard drive
c. add extra RAM to improve the memory
d. remove the network card
31. A computer monitor may have a resolution of 640 x 480 which means _____.
a. the brightness level can go up to 640 points and reduced down to 480 points
b. there are a minimum of 480 pixels and maximum of 640 pixels horizontally
c. there are 640 pixels horizontally and 480 pixels vertically
d. there are 480 pixels horizontally and 640 pixels vertically

SECTION B [60 Marks]

Instruction: Answer *ALL* questions from this section in the Answer Booklet provided.

QUESTION 1

- a. Define computer literate. (2 marks)
- b. Explain **THREE (3)** characteristics of a computer literate user. (3 marks)
- c. Explain **FOUR (4)** applications of computer technology in business. (4 marks)
- d. (i) What is ergonomics? (2 marks)
(ii) Explain **FOUR (4)** ways that can reduce the risk of injuries or discomfort while working at the computer. (4 marks)

(Total: 15 marks)

QUESTION 2

- a. Explain the difference between data and information. (2 marks)
- b. Answer the following questions.
 - (i) State the acronym for URL (1 mark)
 - (ii) What does URL represent? (1 mark)
 - (iii) Given the following URL, identify the parts labelled as *P*, *Q*, *R* and *S*. (4 marks)

https:// www.mmu.edu.my / community / academic-calendar / trimester1920.pdf
P *Q* *R* *S*

- c. In general, there are **TWO (2)** types of software that can be installed in a computer. State and explain these software with suitable examples. (4 marks)
- d. List and explain **THREE (3)** available features in a productivity software. (3 marks)

(Total: 15 marks)

Continued...

QUESTION 3

- a. What is the meaning of digital media? State **TWO (2)** advantages of using digital media business. (3 marks)
- b. Explain the terms file and folder. State **TWO (2)** rules when naming a file. (4 marks)
- c. What is Random Access Memory (RAM) and hard disk. State **ONE (1)** advantage and **ONE (1)** disadvantage of each of them. (6 marks)
- d. Nowadays, there are a huge number of choices when it comes to selecting a computing device. State **TWO (2)** advantage of choosing to a buy a laptop instead of a desktop. (2 marks)

(Total: 15 marks)

QUESTION 4

- a. List **FOUR (4)** features that you can find in your smartphone. (2 marks)
- b. What are E-readers? State **THREE (3)** basic features of E-readers. (4 marks)
- c. Intellectual Property (IP) refers to creation of the mind. List and explain any **THREE (3)** categories of IP. (6 marks)
- d. What is a computer virus? Explain **TWO (2)** ways that your computer can be infected by it. (3 marks)

(Total: 15 marks)
